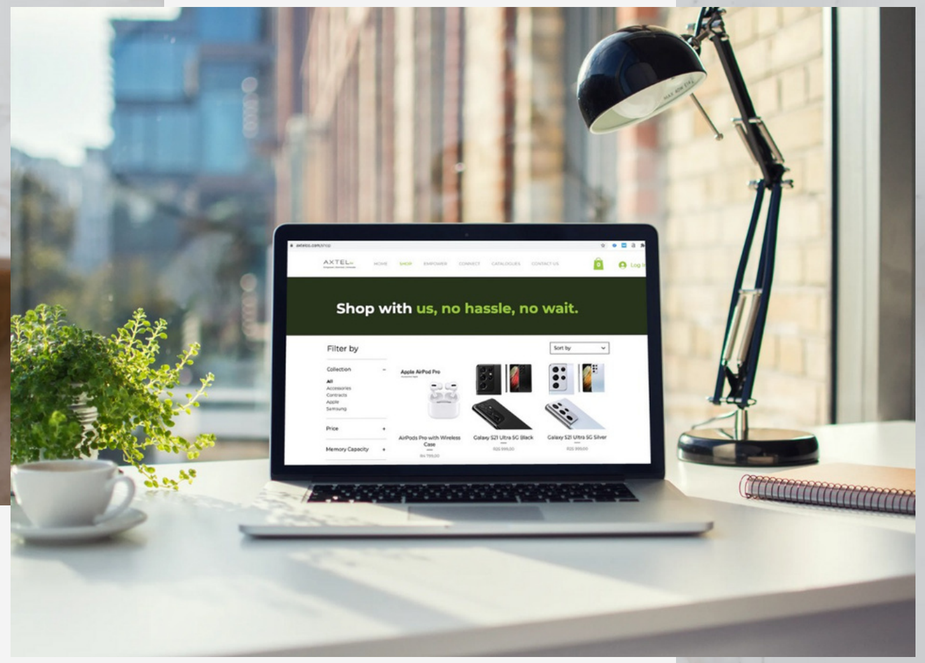
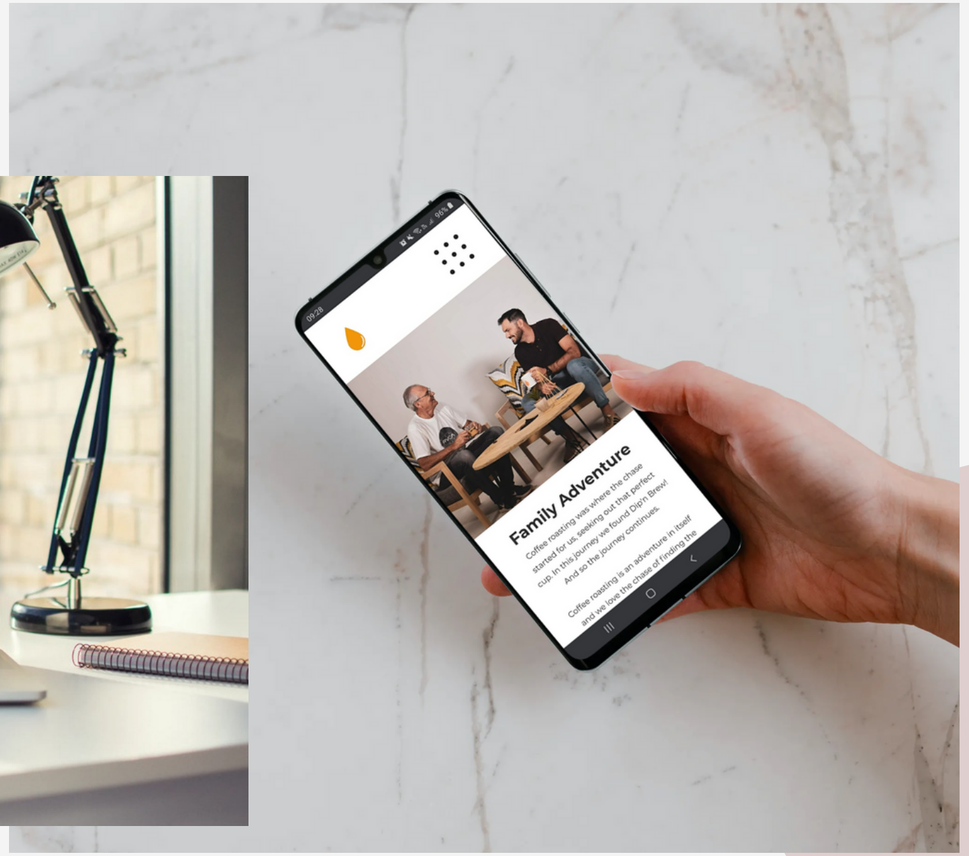
WEBSITE PORTFOLIO

"SMALL ENOUGH TO CARE, BIG ENOUGH TO GET THE JOB DONE"





At Untamed we offer professional, affordable web design packages. We aim to create websites that have the end user in mind while bearing in mind that robots ultimately read what's on the site. As web designers, we are focused on designing a site that is visually creative and user-focused. A website should be both functional and beautiful without compromising on either. In other words, websites should gain the approval of machines but ultimately be for the enjoyment of the consumer.

Who we are
TinySmile was born out of the desire to create a paediatric dental playground using the latest knowledge and technology to create happy tiny smiles. It was created not to be your typical, clinical white walled dentist rooms, but rather a colourful, fantastical dental playground for kids. We are often told by parents that our little friends remember their first visit to TinySmile as a joyful, fun experience.
More About Us
Emergency Advice
Toothache
Rinse the mouth with warm water. If there is any food stuck between the teeth gently dislodge it with floss, this will aid in reducing the pain.
If pain continues you can give your child Panado or Nurofen adhering to the recommended dosages on the package insert.
Make an appointment with your dentist ASAP for definitive treatment.
Trauma
If your child experiences trauma to a front tooth, place a cool pack or pad on the mouth and see your dentist for an x-ray to asses for fractures of the tooth or surrounding bone.
Chipped or Broken tooth
Keep any broken pieces, rinse the mouth and contact your dentist as soon as possible to have the tooth attended to.
Tooth is dislodged or knocked out.
If it is a primary (baby) tooth the tooth cannot be replanted. Rinse the mouth with warm salt water, give Panado or Nurofen for pain relief, adhering to the recommended dosages on the package insert, and then see your dentist as soon as possible.
If it is a permanent tooth it can be replanted. Pick the tooth up by the crown (try
